## CITY OF WYKOFF, MINNESOTA FINANCIAL SECTION

#### INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Members of the City Council City of Wykoff, Minnesota

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Wykoff, Minnesota, as of and for the year ended December 31, 2017, and the related notes to financial statements, which collectively comprise the City of Wykoff, Minnesota's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Wykoff, Minnesota, as of December 31, 2017, and the respective changes in financial position and cash flows thereof and the respective budgetary comparisons for the General Fund, First Responders Fund, and the Rural Fire Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Honorable Mayor and Members of the City Council Page 2

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplemental information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The City of Wykoff, Minnesota, has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

#### Report on Summarized Comparative Information

The financial statements include partial prior year comparative information. Such information does not include all of the information required to constitute a presentation in accordance with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the City's financial statements for the year ended December 31, 2016, from which such partial information was derived.

We have previously audited the City's 2016 financial statements and our report dated April 24, 2017, expressed unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2016, is consistent, in all material respects, with the audited financial statements from which it has been derived.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Wykoff, Minnesota's basic financial statements. The introductory section and supplementary information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The introductory section and supplementary information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Honorable Mayor and Members of the City Council Page 3

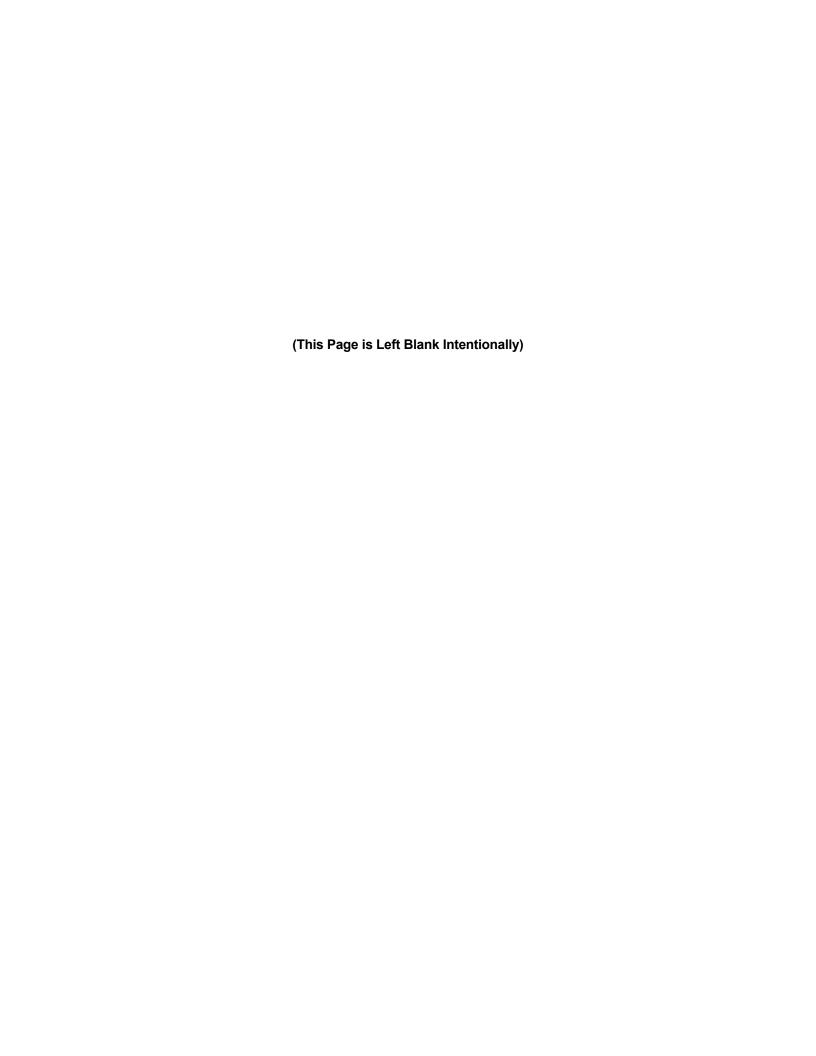

#### Other Reporting Required by Government Auditing Standards

Smith, Schafn and Associates, Led.

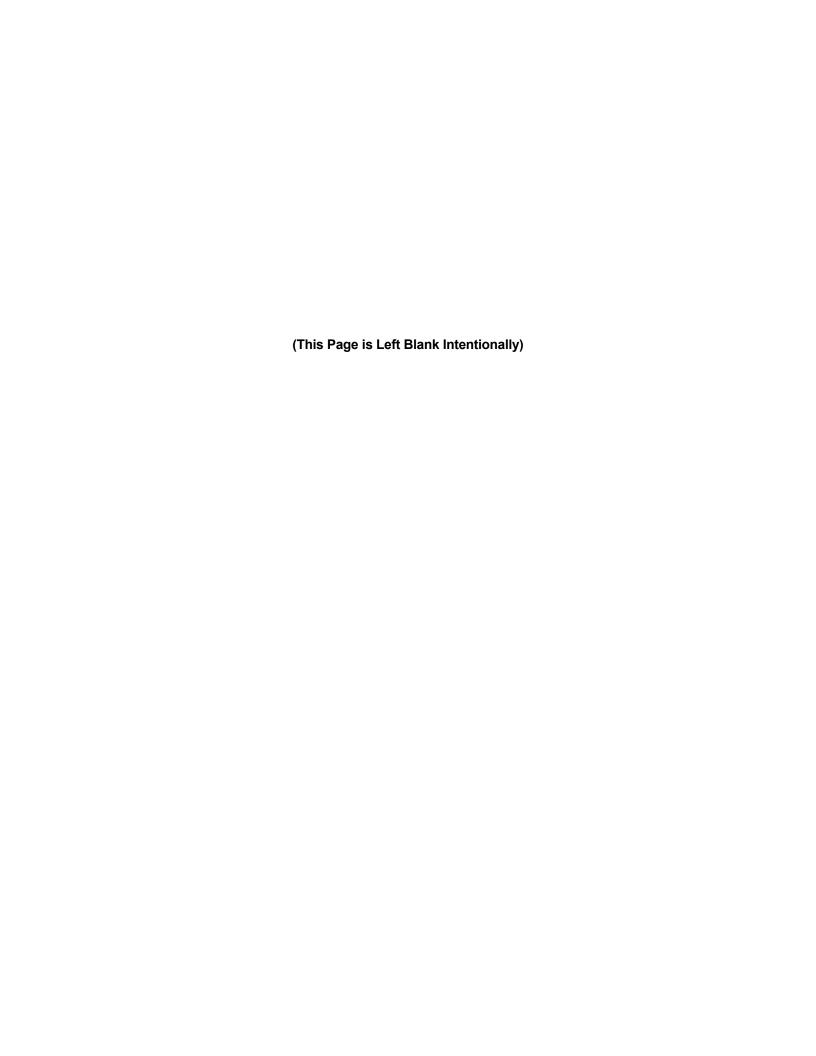

In accordance with *Government Auditing Standards*, we have also issued our report dated April 2, 2018, on our consideration of the City of Wykoff, Minnesota's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Wykoff, Minnesota's internal control over financial reporting and compliance.

Rochester, Minnesota

# CITY OF WYKOFF, MINNESOTA RECONCILIATION OF NET POSITION IN THE GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND BALANCES IN THE FUND BASIS FINANCIAL STATEMENTS December 31, 2017

Amounts reported for governmental activities in the statement of net position are different because:

Total governmental fund balances (page 7 and 8)		\$ 746,845
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.  Governmental funds - capital assets  Less: Accumulated depreciation	\$ 3,507,663 (2,714,464)	793,199
Some receivables are not available soon enough to pay for current period expenditures and therefore are unavailable in the funds.  Delinquent property taxes  Special assessments	\$ 9,301 17,672	26,973
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.  Bonds payable Net pension liability Net pension asset Accrued interest	\$ (102,000) (28,323) 43,523 (932)	(87,732)
Net position of governmental activities (page 4)		\$ 1,479,285

# CITY OF WYKOFF, MINNESOTA RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For the Year Ended December 31, 2017

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds (page 9 and 10)			\$ 138,441
Governmental funds reported capital outlays as expenditures.  However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.			
Capital outlay	\$	13,610	
Depreciation expense		(97,372)	
	<u> </u>		(83,762)
Certain revenues in the statement of activities do not provide current financial resources and are not reported as revenues in the funds.  Property taxes  Special assessments	\$	(3,055) (14,614)	(17,669)
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.  Change in accrued interest Change in net pension liability Principal retirement on long-term debt	\$	146 (1,377) 16,000	14,769
Change in net position of governmental activities (pages 5 and 6)			\$ 51,779

# CITY OF WYKOFF, MINNESOTA NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2017

#### NOTES TO THE FINANCIAL STATEMENTS

#### 1. Summary of Significant Accounting Policies

The City's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the City are discussed below.

#### Reporting Entity

In accordance with GASB Statement No. 14 of the City's financial statements include the primary government and the component units of the City of Wykoff, defined as follows:

*Primary Government* - Includes all funds, account groups, organizations, institutions, agencies, departments, or offices which are not legally separate from the City of Wykoff.

Component Units - Component units are legally separate organizations for which the elected officials of the City of Wykoff are financially accountable or for which the nature or significance of their relationship with the City of Wykoff would cause the financial statements to be misleading or incomplete. Based on these criteria, there are no component units of the City of Wykoff.

#### Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the City. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

#### Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

#### 1. Summary of Significant Accounting Policies (Continued)

#### Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, licenses and permits, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available.

Non-exchange transaction, in which the City receives value without directly giving equal value in return, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the year for which the tax is levied. Revenue from grants and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year in when the resources are required to be used or the year when use is first permitted; matching requirements, in which the City must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it is recognized.

Unearned revenue is recorded when assets are recognized before revenue recognition criteria have been satisfied. Grants received before eligibility requirements other than time requirements are met are recorded as unearned revenue. Grants received before time requirements are met are recorded as a deferred inflow of resources.

The City reports the following major governmental funds:

The *General fund* is the government's primary operating fund. It accounts for all financial resources of the City, except those required to be accounted for in another fund.

The First Responders fund accounts for activities of the first responder service.

The Rural Fire fund accounts for the activities of the volunteer fire department.

The Revolving Loan fund accounts for the disbursement and collection of revolving loans.

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

#### 1. Summary of Significant Accounting Policies (Continued)

#### Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

The 2012A Improvement Refunding Bond fund accounts for the accumulation of resources for payment of the refunding bonds.

The Capital Improvement fund accounts for all major capital improvements of the City.

The City reports the following major proprietary funds:

The Water fund accounts for the operation of the City owned water utility system.

The Sewer fund accounts for the operation of the City owned sewer utility system.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the City's enterprise funds and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

#### Assets, Liabilities, Deferred Inflows of Resources and Net Position

#### Cash and Investments

Except where otherwise required, the City maintains all deposits in accounts in the name of the City. The deposits are invested on a short-term basis with interest income allocated to each fund based upon their relative account balance. The balances shown in each fund represents an equity interest in the commingled pool of cash and investments which is under the management of the City. Investments consist primarily of nonparticipating certificates of deposit recorded at cost, which approximates market value. For purposes of the Financial Statements all investments are considered to be cash and cash equivalents.

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

#### 1. Summary of Significant Accounting Policies (Continued)

#### Assets, Liabilities, Deferred Inflows of Resources and Net Position (Continued)

#### Interfund Transactions

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

#### Property Taxes

Property tax levies are set by the City Council in October of each year and are certified to the County for collection in the following year. In Minnesota, counties act as collection agents for all property taxes. The County spreads all levies over taxable property. Such taxes become a lien on January 1, following, and are recorded as receivables by the City at that date. Revenues for property taxes are accrued and recognized in the year collectible, net of delinquencies.

Real property taxes may be paid by taxpayers in two equal installments on May 15 and October 15. Personal property taxes may be paid on February 28 and June 30. The County provides tax settlements to cities and other taxing districts normally during the months of July and December.

Taxes which remain unpaid at December 31 are classified as delinquent taxes receivable. The amount of delinquent taxes receivable are fully offset by deferred inflow of resources in the governmental fund types because they are not known to be available to finance current expenditures.

#### Special Assessments

Assessments are levied at various times upon City Council resolution for property owner improvements made by the City. Assessment collections are deferred over periods ranging from three to fifteen years with interest charges of 6.0%. Revenue from these assessments is recognized as the annual installments become collectible. Annual installments not collected as of each December 31 are classified as delinquent assessments receivable. The amount of delinquent assessments receivable are fully offset by deferred inflow of resources in the Governmental Fund Types because they are not known to be available to finance current expenditures.

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

#### 1. Summary of Significant Accounting Policies (Continued)

Assets, Liabilities, Deferred Inflows of Resources and Net Position (continued)

#### Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed, net of interest earned on the invested debt proceeds over the same period.

Property, plant and equipment are capitalized when acquired, and depreciation is provided using the straight-line method applied over the following estimated useful lives of the assets.

	Useful Life
	<u>in Years</u>
Buildings	10 - 40
Infrastructure	15 - 50
Other Improvements	5 - 40
Machinery and Equipment	2 - 20

GASB Statement No. 34 requires the City to report and depreciate new infrastructure assets effective January 1, 2004. Infrastructure assets include roads, bridges, underground pipe (other than related to utilities), etc. These financial statements do not include the historical cost or related depreciation of infrastructure constructed prior to 2004.

#### Concentration of Credit Risk

Financial instruments which expose the City to a concentration of credit risk consist primarily of cash investments and accounts and loans receivable. The City's accounts and loans receivable are concentrated geographically, as for the most part, amounts are due from individuals residing in and businesses located in the City of Wykoff, Minnesota.

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

#### 1. Summary of Significant Accounting Policies (Continued)

Assets, Liabilities, Deferred Inflows of Resources and Net Position (continued)

#### Net Position / Fund Balance

In the government-wide and proprietary financial statements, net position is classified in the following categories:

<u>Invested in Capital Assets, Net of Related Debt</u> – This amount consists of capital assets net of accumulated depreciation and reduced by outstanding debt attributed to the acquisition, construction, or improvement of the assets.

<u>Restricted Net Position</u> – This amount is restricted by external creditors, grantors, contributors, laws or regulations of other governments.

<u>Unrestricted Net Position</u> – This amount includes all net position that does not meet the definition of "invested in capital assets, net of related debt" or "restricted net position."

In accordance with Governmental Accounting Standards Board 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the City classifies governmental fund balances as follows:

<u>Non-spendable</u> – includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual restraints.

<u>Restricted</u> – This amount is restricted by external creditors, grantors, contributors, laws or regulations of other governments.

<u>Committed</u> – includes fund balance amounts that are constrained for specific purposes that are internally imposed by the City Council through formal action and remain binding unless removed by the City Council by subsequent formal action.

<u>Assigned</u> – includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. The City Council, by majority vote, may assigned fund balances to be used for specific purposes when appropriate. The council also delegates the power to assign fund balances to the following: city administrator.

<u>Unassigned</u> – includes positive fund balance within the General Fund which has not been classified within the above mentioned categories and negative fund balances in other governmental funds.

When expenditures are made, the City uses restricted/committed amounts first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as a grant agreement requiring for dollar spending. Additionally, the City would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

#### 1. Summary of Significant Accounting Policies (Continued)

Assets, Liabilities, Deferred Inflows of Resources and Net Position (continued)

#### **Pensions**

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA except that PERA's fiscal year end is June 30. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### Deferred Outflows of Resources

In addition to assets, the financial statements will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until that time. The City has one type of deferred outflow which is pension related and reported on the statement of net position.

#### **Deferred Inflows of Resources**

In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City recognized two types of deferred inflows. The first type occurs because governmental fund revenues are not recognized until available under the modified accrual basis of accounting. The second type is pension related and reported on the statement of net position.

#### Reclassifications

Certain amounts in the 2016 financial statement have been reclassified to conform to the 2017 presentation.

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

#### 2. Cash and Investments

#### Summary of Cash and Investments

As of December 31, 2017, the City's cash and investments consisted of the following items, all of which are held in an internal investment pool:

Cash and Investments Maturities		Ratings	Fa	Fair Value	
Cash on hand	None	N/A	\$	100	
Deposits	None	N/A		99,389	
Non-negotiable certificates of deposit	March 2018	N/A		1,162,346	
Total Cash and Investments			\$	1,261,835	

#### Investments Authorized by Minnesota Statues

The City is authorized by Minnesota Statutes to invest idle funds as follows:

- (a) Direct obligations or obligations guaranteed by the United States or its agencies.
- (b) Shares of investment companies registered under the Federal Investment Company Act of 1940 and whose only investments are in securities described in (a) above.
- (c) General obligations of the State of Minnesota or its municipalities.
- (d) Bankers' acceptances of United States banks eligible for purchase by the Federal Reserve System.
- (e) Commercial paper issued by United States corporations or their Canadian subsidiaries, of the highest quality, and maturing in 270 days or less.
- (f) Repurchase agreements with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000, a reporting dealer to the Federal Reserve Bank of New York, or certain Minnesota securities broker-dealers.
- (g) Money market funds with institutions that have portfolios consisting exclusively of United States Treasury obligations and Federal Agency issues.

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

#### 2. Cash and Investments (Continued)

#### Collateralization of Cash Deposits

The City's deposits are entirely covered by federal depository insurance or by collateral held by the City's custodial banks in the City's name.

Minnesota Statues require that all City deposits be insured, secured by surety bonds or be collateralized. Except for notes secured by first mortgages of future maturity, the market value of collateral pledged by the custodial bank must equal 110% of the deposits not covered by insurance or surety bonds.

Authorized collateral includes certain state of local government obligations and legal investments. Minnesota Statues also require that securities pledged as collateral be held in safekeeping by the Treasurer, or in a financial institution other than the institution furnishing the collateral.

#### Interest Rate Risk

The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

#### Credit Risk

The City has no investment policy that would further limit its investment choices.

#### Concentration of Credit Risk

The City places no limit on the amount the City may invest in any one issuer. Investments that are more than 5 percent of the City's total investments are as follows:

Investment	Rating	Percent of Total
Non-negotiable certificates of deposit	Unrated	100%

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

#### 2. Cash and Investments (Continued)

#### Fair Value Measurement

Fair value measurements are determined utilizing the framework established by the Governmental Accounting Standards Board. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets
  or liabilities in active markets that the City has the ability to access.
- Level 2: Inputs to the valuation methodology include:
  - o Quoted prices for similar assets or liabilities in active markets
  - o Quoted prices for identical assets or liabilities in inactive markets
  - o Inputs other than quoted prices that are observable for the asset or liability
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specific (contractual) term, Level 2 input must be observable for substantially the full term of the asset or liability

 Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There were no assets which were required to be measured at fair value by the City at December 31, 2017 or 2016.

#### 3. Due From Other Governmental Units

Amounts due from other governmental units at December 31, 2017 are as follows:

Fund	 illmore County	State of Minnesota	Township Contracts	Total

#### 5. Long-Term Debt

The Long-Term debt obligations outstanding and related maturities and interest rates are summarized in the schedule of bonds payable.

#### **General Obligation Improvement Bond:**

The bond is payable primarily from special assessments levied on the properties benefiting from the improvements and/or ad valorem tax levies. They are backed by the full faith and credit of the City.

#### **General Obligation Revenue Bonds:**

The Drinking Water Revenue Bonds are payable primarily from the revenues generated through charges to customers for water service. They are recorded as liabilities in the Water Enterprise Fund and are backed by the full faith and credit of the City. The Sewer Revenue Bonds are payable primarily from the revenues generated through charges to customers for sewer service. They are recorded as liabilities in the Sewer Enterprise Fund and are backed by the full faith and credit of the City.

A summary of interest rates, maturities and December 31, 2017 balances are as follows:

	Range of Interest Rates	Final Maturity		Balance cember 31, 2017
General Obligation Improvement Bond: 2012A Refunding Improvement Bond	2.20%	2/1/2023	\$	102,000

2048-2052		223,000	30,797		253,797	
2053-2054		98,000	3,859		101,859	
	\$	1,642,000	\$ 721,538	\$	2,363,538	

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

#### 6. Individual Fund Disclosures

Operating transfers, at the individual fund level, were as follows:

Funds	Transfers In			Transfers Out		
General	\$	22 200	\$	23,300		
Sewer		23,300				
	<u>\$</u>	23,300	\$	23,300		

#### 7. Fund Equity

The City uses restricted/committed amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as a grant agreement requiring for dollar spending. Additionally, the City would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made. Committed fund balances consist of the following:

	General	Re	First sponders	R	ural Fire	R 	evolving Loan	Capital provement		Total
Street improvements Equipment	\$ 140,000	\$		\$	21,012	\$		\$ 54,120	\$ 1	194,120 21,012

City shed								3,072		3,072
Fire								36,794		36,794
Street lights								5,164		5,164
Museum								5,192		5,192
Emergency disaster								9,897		9,897
Total	\$ 140,000	\$	15,256	\$	21,012	\$	56,527	\$ 114,239	\$ 3	347,034

#### 8. Commitments and Contingencies

The City participates in various federal and state agency assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The City does not anticipate any audit adjustments or disallowed program expenditures that would be material in relation to the general purpose financial statements taken as a whole.

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

#### 9. Defined Benefit Pension Plans - Statewide

#### Plan Description

The City of Wykoff, Minnesota participates in the General Employees Retirement Fund, a cost-sharing multiple-employer defined benefit pension plan administered by the Public Employees Retirement Association of Minnesota (PERA). PERA's defined benefit pension plans are established and administered in accordance with Minnesota *Statutes*, Chapters 353 and 356. PERA's defined benefit pension plans are tax qualified plans under Section 401 (a) of the Internal Revenue Code.

All full-time and certain part-time employees of the City of Wykoff, Minnesota are covered by the General Employees Plan. General Employees Plan members belong to either the Coordinated Plan or the Basic Plan. Coordinated Plan members are covered by Social Security and Basic Plan members are not. The Basic Plan was closed to new members in 1967. All new members must participate in the Coordinated Plan.

#### Benefits Provided

PERA provides retirement, disability, and death benefits. Benefit provisions are established by state statute and can only be modified by the state Legislature.

Benefit increases are provided to benefit recipients each January. Increases are related to the funding ratio of the plan. Members in plans that are at least 90 percent funded for two consecutive years are given 2.5 percent increases. Members in plans that have not exceeded 90 percent funded, or have fallen below 80 percent, are given one percent increases.

The benefit provisions stated in the following paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

General Employees Plan benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated and Basic Plan members. The retiring member receives the higher of a step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2). Under Method 1, the annuity accrual rate for a Basic Plan member is 2.2 percent of average salary for each of the first ten years of service and 2.7 percent for each remaining year. The annuity accrual rate for a Coordinated Plan member is 1.2 percent of average salary for each of the first ten years and 1.7 percent for each remaining year. Under Method 2, the annuity accrual rate is 2.7 percent of average salary for Basic Plan members and 1.7 percent for Coordinated Plan members for each year of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66.

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

#### 9. Defined Benefit Pension Plans - Statewide (Continued)

#### **Contributions**

*Minnesota Statutes* Chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state Legislature.

Basic Plan members and Coordinated Plan members were required to contribute 9.1 percent and 6.50 percent, respectively, of their annual covered salary in calendar year 2017. The City was required to contribute 11.78 percent of pay for Basic Plan members and 7.50 percent for Coordinated Plan members in calendar year 2017. The City's contributions to the General Employees Fund for the year ended December 31, 2017, were \$4,682. The City's contributions were equal to the required contributions as set by state statute.

#### Pension Costs

At December 31, 2017, the City reported a liability of \$63,839 for its proportionate share of the General Employees Fund's net pension liability. The City's net pension liability reflected a reduction due to the State of Minnesota's contribution of \$6 million to the fund in 2017. The State of Minnesota is considered a non-employer contributing entity and the state's contribution meets the definition of a special funding situation. The State of Minnesota's proportionate share of the net pension liability associated with the City totaled \$778. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on the City's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2016, through June 30, 2017, relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2017, the City's proportion was 0.0010 percent which was a decrease of 0.0005 percent from its proportion measured as of June 30, 2016.

For the year ended December 31, 2017, the City recognized pension expense of \$(7,530) for its proportionate share of the General Employees Plan's pension expense. In addition, the City recognized an additional \$22 as pension expense (and grant revenue) for its proportionate share of the State of Minnesota's contribution of \$6 million to the General Employees Fund.

At December 31, 2017, the City reported its proportionate share of the General Employees Plan's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Out	tflows of	Deferred Inflows of Resources		
\$		\$	4,056	
	9,497			
	6,037			
			25,751	
	2,524			
\$	18,058	\$	29,807	
	Out Re:	9,497 6,037 2,524	Outflows of Resources  \$ 9,497 6,037	

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

#### 9. Defined Benefit Pension Plans - Statewide (Continued)

\$2,524 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date which will be recognized as a reduction of the net pension liability during the year ended December 31, 2018. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

	Pension Expense					
Year ending June 30:	Amount					
2018	\$	861				
2019		(2,531)				
2020		(9,892)				
2021		(2,711)				

#### Actuarial Assumptions

The total pension liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.50%	Per year
Active Member Payroll Growth	3.25%	Per year
Investment Rate of Return	7.50%	

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors and disabilitants were based on RP-2014 tables for all plans for males or females, as appropriate, with slight adjustments to fit PERA's experience. Cost of living benefit increases for retirees are assumed to be one percent per year for the General Employees Plan through 2044.

Actuarial assumptions used in the June 30, 2017 valuation were based on the results of actuarial experience studies. The most recent four-year experience study in the General Employees Plan was completed in 2016.

There following changes in actuarial assumptions occurred in 2017.

#### General Employees Fund

- The Combined Service Annuity (CSA) loads were changed from 0.8 percent for active members and 60 percent for vested and non-vested deferred members. The revised CSA loads are now 0.0 percent for active member liability, 15.0 percent for vested deferred member liability and 3.0 percent for non-vested deferred member liability.
- The assumed post-retirement benefit increase rate was changed from 1.0 percent per year for all years to 1.0 percent per year through 2044 and 2.5 percent per year thereafter.

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

#### 9. Defined Benefit Pension Plans - Statewide (Continued)

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

		Long Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Domestic Stocks	39%	5.10%
International Stocks	19%	5.30%
Bonds	20%	0.75%
Alternative Assets	20%	5.90%
Cash	2%	0.00%
Total	100%	<del>.</del>

#### Discount Rate

The discount rate used to measure the total pension liability in 2017 was 7.50%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at the rates set in Minnesota Statute. Based on these assumptions, the fiduciary net position of the General Employees Fund was projected to be available to make all projected future benefit payments of plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### Pension Liability Sensitivity

The following presents the City's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate one percentage point lower or one percentage point higher than the current discount rate:

	1% E	Decrease in			1%	Increase in
				count Rate (7.50%)	Discount Rate (8.50%)	
City's proportionate share of the GERF net pension liability	\$	99.020	\$	63.839	\$	35.038

#### Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the Internet at www.mnpera.org.

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

#### 10. Defined Benefit Pension Plan - Volunteer Fire Relief Association

The Wykoff Volunteer Fire Department Relief Association has not had an actuarial study performed. The Association believes the funding status determined using the calculation required by the Minnesota State Auditor is sufficient to determine the reportable amounts under GASB No. 68, *Accounting and Financial Reporting for Pensions*.

#### Plan Description

The City contributes to the City of Wykoff Volunteer Fire Relief Association ("Association"), a single employer public employee retirement system that acts as a common investment and administrator for the City's firefighters.

Volunteer firefighters of the City are members of the Wykoff Volunteer Fire Department Relief Association. Association members are eligible to receive a lump sum pension benefit of \$1,200 per person per year of service after reaching a minimum retirement age of 50 and at least 20 years of service with 10 years of membership in the association. Association members are eligible to receive partial pension benefits for service of 10 to 20 years with 10 years of membership in the association. Association members are eligible to receive partial pension benefits for service of 10 to 20 years with 10 years of membership in the association. Partial vesting begins at 60% in the tenth year and increases 4% per year of additional service until fully vested. These benefit provisions are consistent with enabling State statutes. Volunteers of the department are not required to contribute to the relief association. The City levies property taxes at the direction of and for the benefit of the fire relief association and passes through state aids allocated to the plan, all in accordance with enabling state statutes. During 2017, at the Association direction, the City did not levy any property taxes to be paid to the Association.

#### Related Party Investments

During 2017 and as of December 31, 2017, the Association held no securities issued by the City.

#### Funding Status and Progress

At December 31, 2016 the Association funding status is as follows:

Total plan assets	\$ 304,763
Total accrued liability	(261,240)
Excess (Deficiency) of Plan Assets	
over Accrued Liability	\$ 43,523

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

#### 10. Defined Benefit Pension Plan - Volunteer Fire Relief Association (Continued)

#### Contributions Required and Contributions Made

Financial requirements of the Association are determined on a computation based on member years of service. The City's minimum obligation is the financial requirement for the year less Association investment earnings and State aids. The funding strategy should provide sufficient resources to pay relief association benefits on a timely basis. The City was not obligated to make a contribution in 2017.

The computation of the pension contribution requirements for 2017 was based on the same assumptions, benefit provision, lump sum funding method, and other significant factors used to determine pension contributions requirements in previous years.

#### Ten-Year Historical Trend Information

Ten-year historical trend information related to the pension plan is unavailable.

#### 11. Risk Management

The City is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City carries insurance for liability, property, employee health and automotive insurance through the League of Minnesota Cities Insurance Trust (LMCIT).

Settled claims resulting from these risks have not exceeded the insurance coverage in any of the past three years. There were no reductions in insurance coverage in 2017. Coverage amounts on these insurance policies are as follows:

#### **Employee Theft:**

Clerk/Treasurer \$ 75,000

All Others 25,000

The City participates in a group workers' compensation plan of the LMCIT, which is a public entity risk pool currently operating as a common risk management and insurance program for member Minnesota Cities. All cities participating in the plan are jointly and severally liable for all claims and expenses of the plan. The LMCIT workers' compensation plan is self-sustaining based on the premiums charged, so that total contributions plus compounded earnings on those contributions will be sufficient to satisfy claims liabilities and other expenses of the plan. The LMCIT plan participates in the Workers' Compensation Reinsurance Association with coverage of \$100,000 per claim for plan year 2017. The amount of any liability in excess of plan assets may be assessed to participating Cities in method and amount determined by the LMCIT.

# CITY OF WYKOFF, MINNESOTA COMPLIANCE AND INTERNAL CONTROL REPORTS DECEMBER 31, 2017

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and Members of the City Council City of Wykoff, Minnesota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Wykoff, Minnesota, as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the City of Wykoff, Minnesota's basic financial statements and have issued our report thereon dated April 2, 2018.

#### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City of Wykoff, Minnesota's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Wykoff, Minnesota's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Wykoff, Minnesota's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, finding 2008-001, described in the accompanying schedule of findings and responses that we consider to be a significant deficiency.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City of Wykoff, Minnesota's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Honorable Mayor and Members of the City Council City of Wykoff, Minnesota

#### City of Wykoff, Minnesota's Response to Findings

Smith, Schafn and Associates, Lid.

City of Wykoff, Minnesota's response to the finding identified in our audit is described in the accompanying schedule of findings and responses. City of Wykoff, Minnesota's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Rochester, Minnesota

# CITY OF WYKOFF, MINNESOTA SCHEDULE OF PRIOR YEAR FINDINGS AND RESPONSES YEAR ENDED DECEMBER 31, 2017

FINDING – 2008-001 ANNUAL FINANCIAL REPORTING UNDER GENERALLY ACCEPTED ACCOUNTING PRINCIPALS (GAAP)

Condition: A City of this size has an inherent limitation in its ability to effe

A City of this size has an inherent limitation in its ability to effectively segregate its accounting duties and to prepare annual full disclosure financial statements in accordance with generally accepted accounting principles. It would not be practical for City to devote the resources required to overcome this limitation. The potential exists that a material disclosure could be omitted from the financial statements and not be prevented

or detected by the City's internal controls.

Criteria: The City should have controls in place to prevent or detect the omission of a material

disclosure in the annual financial statements.

Context: The City has informed us they will continue to rely upon the audit firm to prepare the

financial statements and related footnote disclosures, and will review and approve

these prior to the issuance of the financial statements.

Effect: No effect on the financial statements.

Cause: The City does not have the expertise to draft the notes to the financial statements;

however, they have reviewed and approved the annual financial statements as

prepared by the audit firm.

Recommendation: We recommend the City continue to evaluate their internal staff and expertise to

determine if further controls over the annual financial reporting are beneficial.

#### **CORRECTIVE ACTION PLAN (CAP):**

#### **Explanation of Disagreement with Audit Findings:**

There is no disagreement with the audit findings.

#### **Actions Planned in Response to Findings:**

The management and accounting personnel review the drafted financial statements and notes. The City does not have the expertise to ensure all disclosures required by GAAP are included in the financial statements. Accordingly, the City will rely upon the auditors for completeness of the disclosures. However, the management and accounting personnel will review the notes for accuracy prior to issuance of the statements.

#### Official Responsible for Ensuring CAP:

Rebecca Schmidt, Clerk-Treasurer, is the official responsible for ensuring the planned responses.

#### Planned Completion Date for CAP:

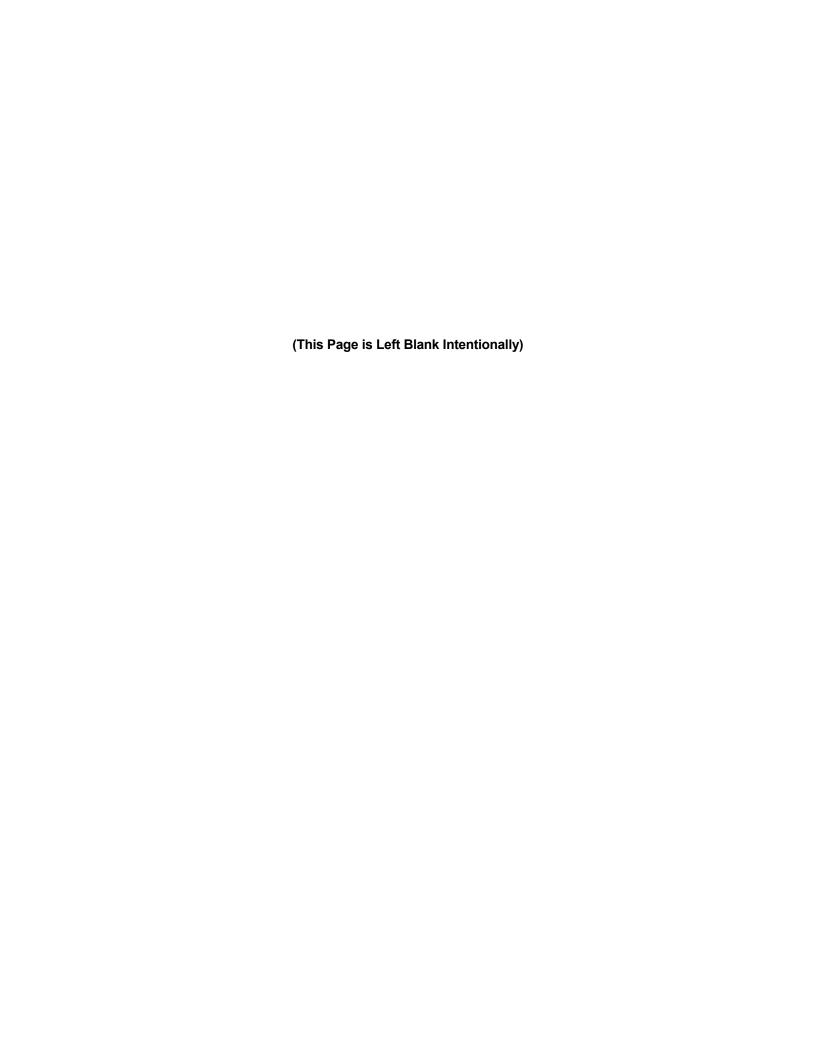

Not applicable as the City is willing to accept this risk at this time and will continue to evaluate the recommendation.

#### **Plan to Monitor Completion of CAP:**

Alan Williams, Mayor, will ensure the review by the Clerk-Treasurer has been completed. He will do this through discussion with the Clerk/Treasurer and reviewing the draft of the financial statements.

#### **CURRENT STATUS:**

The finding recurred in 2017.

#### MINNESOTA LEGAL COMPLIANCE

#### **Independent Auditor's Report**

Honorable Mayor and Members of the City Council City of Wykoff, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States the financial statements of the City of Wykoff, Minnesota as of and for the year ended December 31, 2017, and the related notes to financial statements, which collectively comprise the City of Wykoff, Minnesota's basic financial statements, and have issued our report thereon dated April 2, 2018.

The Minnesota Legal Compliance Audit Guide for Cities, promulgated by the State Auditor pursuant to Minn. Stat. § 6.65, contains seven categories of compliance to be tested: contracting and bidding, deposits and investments, conflicts of interest, public indebtedness, claims and disbursements, miscellaneous provisions, and tax increment financing. Our audit considered all of the listed categories.

In connection with our audit, nothing came to our attention that caused us to believe that the City of Wykoff, Minnesota failed to comply with the provisions of the Minnesota Legal Compliance Audit Guide for Cities. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the City of Wykoff, Minnesota's noncompliance with the above referenced provisions.

The purpose of this report is solely to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance. Accordingly, this communication is not suitable for any other purpose.

Rochester, Minnesota

Smith, Schafu and associates, Led.
